

## COVID-19 CORONAVIRUS STATEMENT

JANUARY 21, 2022

We have all been impacted by the coronavirus pandemic and its variations. Many have experienced losses and everyone has experienced disruptions to life. At Sahale, we continue to stay informed and do our best to make healthy decisions in an ever-changing world.

*The safety of the Goodenough Community's members and Sahale's guests continues to be very important to us.*

Sahale is open for visitors and events. **All guests must be fully vaccinated and have the booster.** For now, there are no exceptions, and we appreciate your full support.

Our best wishes as we navigate the health of the global community together.
